Get Ready For The GED Prep!

Free

Preparing for the GED test can be a difficult challenge. Before you register for a GED Prep class, you may need to brush up on some basic math and language arts skills first. Volunteers and staff are available to help on an appointment basis to help you gain confidence before you take the next step and register for the actual GED Prep Class.

Call 403-823-8300 to arrange an appointment or for more information. Available upon request.

Boost Your Math Skills!

Free

Whether you are getting ready for the GED prep course or just to improve your math for every day life, we can help! In a one-on-one setting, you can learn, practice, and develop your math operation skills - adding, subtraction, multiplying, dividing, calculating dimensions, fractions, and more! We can focus on what you want to learn and at a pace that works for you.

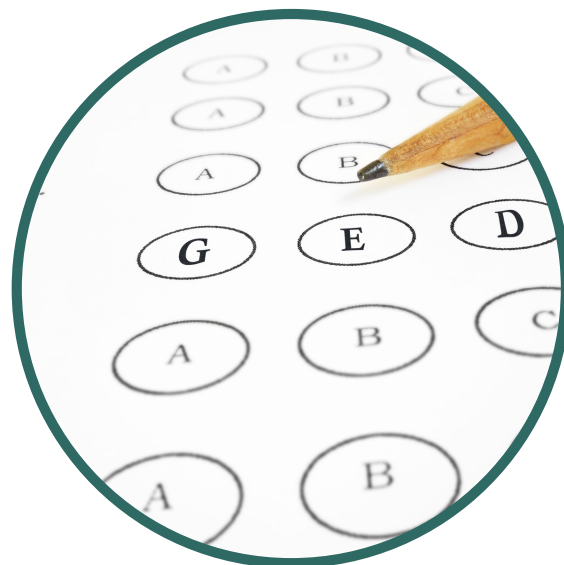

Call 403-823-8300 to arrange an appointment or for more information. Available upon request.

Reading & Writing Workout!

Free

You can raise your reading and writing abilities to a higher level, with our one-on-one support. Whether you are getting ready for a GED Prep course or just want to improve reading and writing for everyday life or work, let us provide some help. We can focus on what you would like to learn - understanding directions or instructions, writing letters or emails, filling out forms and more. You can work at your own speed at a time that works for you.

Call 403-823-8300 to arrange an appointment or for more information. Available upon request.

For all course registrations and inquiries call 403-823-8300. Registration and/or cancellations must be completed 1 week before the class. Classes may be cancelled if minimum numbers aren't met, so register ASAP!

Meditation and YOU (3 Classes)

\$60

Meditation is a grounding practice that helps you to know yourself better, appreciate yourself and others more, and allows you to get more relaxed. Science has proven that regular meditation can have powerful, long-lasting effects. Meditation helps to activate our rest-and-digest system and begin the process of ushering our body back to a more natural and calm state. Our body begins to heal, grow stronger, and more resilient. Start a new journey to improve your life and those around you today.

Please bring a water bottle and wear comfortable clothing.

Drumheller Family Literacy

A simple gift...
To learn, laugh,
play, & grow
together.

It's not always easy being a parent.
Often you're tired and have too much to do.
When you join us, we can help out so you can take a break!

Play is the "work of children". Parents are an essential "play partner" for their children. When parents play with their kids, they learn to explore and discover the world and their role in it. Come play with us!

We can teach you songs and comfort strategies for when your child is in need!
Responding quickly in ways that show your child they can depend on you will give your child the simple gift of confidence. This gift will make a huge difference for the rest of their life.

Raylin Robinson

Raylin Robinson is an experienced computer trainer, having recently worked with large organizations to help implement a new computer and operating system and train new staff and users until proficiency. Along with this, she is also highly experienced with Microsoft Suite products, such as Outlook, Word, and Excel - but that's not all! Raylin also has some experience in social media marketing and would love to share her knowledge with you!

Computer Basics

This course will teach you how to use your computer in a few hours. Learn basic components of your operating system. Learn how to personalize your desktop, maintain your files, how to use an email program, send and save attachments, upload and download files as email message attachments, use a web browser and Adobe Acrobat Reader and various other housekeeping tasks. No experience is necessary, but you will leave this course more confident in your computer skills!

Web Searching and Email 101

The internet contains millions of websites and billions of pages. No wonder it is easy to become frustrated when searching for information on the internet. In this course, you will learn some timesaving tricks to help you "surf the net" like a pro. You will also learn how to send and receive basic email messages using web-based email and how to open and save an attachment that has been sent to you. You will leave this course with much more confidence and web savvy.

Microsoft Word Basics

Discover the features in Word that enable you to create basic documents such as letters, posters or invitations. You can work on: saving, opening and printing documents: using tabs and indents: and working with tables and more. Previous computer experience in a Windows environment is desirable.

Mastering your computer
can be as easy as
clicking your mouse!

Computers

Social Media Marketing Basics

Are you hoping to expand your business by building an online presence or community on social media? We can help teach you about the various social media platforms, like Facebook or Twitter, and which features they offer that will help you create your brand. Such as, automated advertising, popular times to post an ad, and more.

Microsoft Powerpoint Basics

PowerPoint is a program used for presenting or printing information in an aesthetically pleasing way. Learn how to create presentations, add animations and sounds, automatic control of timing, use built in content, create and store content, insert hyperlinks, create photobooks, and use advanced printing options. Previous computer experience is necessary

Microsoft Excel Basics

Excel Basics is a session focused on those beginning to work with Excel or those with no experience in the use of spreadsheets. The session covers how to create and edit basic worksheets and workbooks. This introductory session is designed for students who want to gain the necessary skills to create, edit, format, and print basic Microsoft Excel 2016 worksheets.

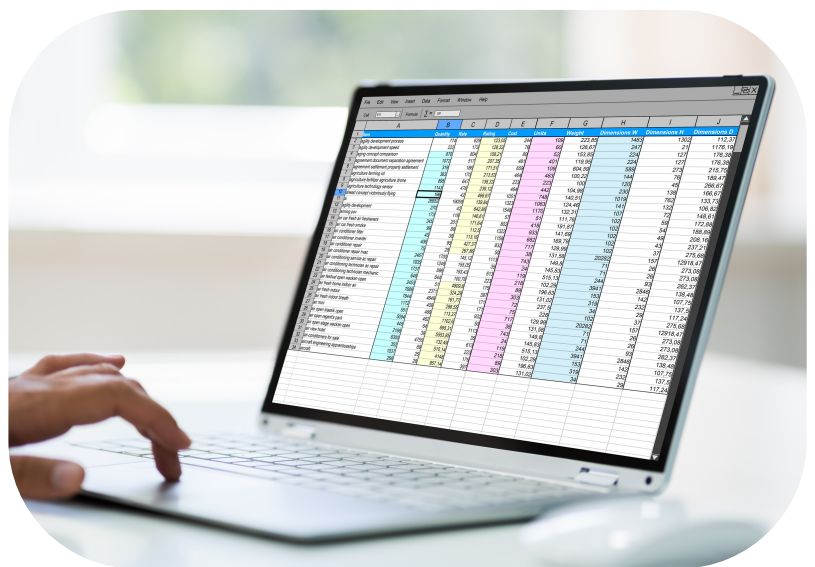

Only
\$40
per hour!

Microsoft Excel Level 1

Microsoft Excel is a spreadsheet program that allows you to produce tables of numbers and perform calculations on these tables. It also provides charting and database capabilities. This project-based session explains how to enter text, numbers and formulas into the spreadsheets. You will learn how to create graphs, and create and print out spreadsheets. Previous computer experience is necessary.

Microsoft Excel Level 2

If you are already an Excel user who currently uses the program, but want to improve the appearance and functionality of spreadsheets and workbooks. Learn how to work with multiple worksheets, create formulas, search and find specific data, use advanced functions (Sumif, Countif, Averagif, etc.), advanced printing options, filtering lists, protecting data, and using templates. Pre-requisite Excel Level 1.
